BUUUUUUUU, Urban Instructions

AFTERSHOW - MI 8.6.2022, 17.00 Uhr

URBAN INSTRUCTIONS is a participative intervention in public space and consists in a series of floor stickers. These islands propose different ways of interacting with other people and with the surrounding environment. Passers-by are invited to do small actions, imagine new possibilities, consider other points of view, refocus on the sense of neighbourhood and living-together. This could change, even for a moment, the community we are living in.
